

Jack...

Having been born and bred in a big city I was a bit ambivalent about moving to an area I hadn't even heard of.

Looking back 18 months later I couldn't be happier with my decision. The variety of things I have done both in and out of work is pretty tough to match.

One day at work I could be doing a hydrotherapy class or a workplace assessment, the next I might be putting a backslab on in the emergency department of the hospital or running a cardiac rehab class.

Outside of work I have barely had a spare moment, from skydiving to snowboarding every weekend has been packed.

If variety is the spice of life, then this is the place to be!
